

Hi,

My name is Lauri Jakku, I'm an Finnish engineer. I have strong linux background, who have some international experience as well, and I'm now actively seeking work to be done via my own company, that would give new problems for me to solve. My ability to adapt situations and to learn quickly new things has always somehow played a part in my work. I have done a lot of things that I haven't really got a grasp, but the eagerness to learn and 'if you can imagine it, you can do it'-attitude has helped to make some quite unique software and solutions to a given problems.

I'm very good in refining existing solution to optimal solution, or create simple, but scalable solutions for small problems. Big problems are just bunch of smaller ones. I've done coding for living about 20 years, and counting, in which I've learned that I can master any skill that is needed, with some time.

My latest work history:

Paxsudoss IT / CEO, 8/2020 - Now (Lightbusiness)

Elektrobit Wireless Oy / Bittium Wireless Oy, Senior Design Engineer, 1/2012 -- 3/2024

Tieto Deutschland GmbH, System SW Designer, 7/2011 -- 12/2011

Nokia Oyj, Senior SW Developer, 12/2008 -- 02/2011

TietoEnator Oy, Senior SW Designer, 3/2006 -- 11/2008

Nomovok Ltd, SW Designer, 02/2005 -- 2/2006

Wapice Ltd, Wireless applications/SW Designer 11/2000 -- 11/2004

My education:

Engineer (Bachelor, Electronics & Information technology), Vaasa's Polytechnic, 2005

Laborant (undergraduate), Oulu's vocational school, 1998

My programming experience:

C & Unix shell scripts, 24-26 years

Python: 4 years

Golang, 2 years

Dart/Flutter, 3 years

Keywords:

Linux, embedded, C, C++, Assembly, Python, Perl, Java, JavaScript, BASH, scripting, client, server, threaded, POSIX, PHP, HTML, CSS, Eclipse, Laika, Apache, DNS, TCP/IP, DHCP, NFS, SSH, MYSQL, Sendmail/Postfix, Amavis, DosEMU, 1-Wire, I2C, Glib, GTK, Android, Maemo, UML, OpenOffice, MS Project, MS Office, debugging, Synergy, SVN, GStreamer, YUV, CME, Yocto, BSP, Bitbake, Git, Gerrit, Jenkins, ZMQ
